EDUCATION

G. H. Raisoni College of Engineering | Nagpur, India

Nov 2022 – Jul 2026

Bachelor of Technology – Computer Science & Engineering (Cyber Security)

CGPA: 9.23

TECHNICAL SKILLS

Programming Languages: Java, Python, C, Kotlin, C++, SQL, JavaScript

Frameworks & Libraries: React.js, Node.js, FastAPI, REST API, Jetpack Compose, Tailwind CSS, SQLAlchemy

Cloud & Platforms: AWS, Firebase, Redis (Microservices), Oracle XE, PostgreSQL, Docker

Development Tools: Android Studio, GitHub, Postman, Eclipse

Core CS Subject: Data Structures & Algorithms, OOPs, Operating Systems, DBMS, Computer Networks

EXPERIENCE

Software Developer Intern | Capgemini | Bangalore, India | ([Link](#))

Jan 2026 – Apr 2026

- Developed and tested scalable backend services using Java and Python on AWS, following clean architecture principles to ensure maintainable, production-ready code.
- Consistently delivered daily progress within team workflows, developing professional discipline around code reviews, documentation, and cross-team communication.

Full Stack Web/App Development Intern | ANORG Technologies | Nagpur | ([Link](#))

Jun 2025 – Nov 2025

- Contributed to frontend and backend tasks across 3+ active projects, integrating REST APIs and collaborating via Git-based workflows including branching, PR reviews, and task tracking.
- Observed and documented senior engineers' architecture decisions for a multi-service deployment, improving personal understanding of system design trade-offs.
- Maintained 100% daily reporting cadence, demonstrating accountability and structured communication in a remote corporate environment.

Software Development Intern | Center of Excellence (AIML), GHRCE | Nagpur | ([Link](#))

Dec 2024 – Jan 2025

- Built an IoT-based smart medicine dispenser using Arduino, ESP32, Firebase, and Android; improved medication scheduling efficiency by 66% through QR-based secure authentication.
- Optimized the Android app for low-resource devices, reducing average response time by 40% through targeted performance profiling and UI rendering improvements.

PROJECT

• **Microservices Backend System using FastAPI (Backend Development, Microservices, REST APIs):** Designed and developed a scalable backend architecture using FastAPI with independent microservices communicating through REST APIs. Implemented database-driven services with optimized data handling, containerized deployment, and modular service design.

Tech: Python, FastAPI, REST API, Docker, Redis, PostgreSQL, SQLAlchemy

([GitHub](#))

• **DECAID - Decentralized Academic Identity & Credential Risk Assessment System (Blockchain, ZKP, Web3):** Built a decentralized platform for secure academic credential verification using Ethereum smart contracts and IPFS-based storage. Implemented privacy-preserving Zero-Knowledge Proof verification for selective credential sharing without relying on centralized authorities.

Tech: React, Node.js, Express, Python, FastAPI, PostgreSQL, Ethereum, IPFS

([GitHub](#))

• **Java Password Manager with AES Encryption (Cyber Security, Cryptography, Secure Storage):** Built a secure console-based password vault using AES-256 encryption to protect credentials with encrypted local storage. Implemented cryptographic workflows, safe file handling, and modular OOP architecture for storing, retrieving, and managing passwords efficiently.

Tech: Java, AES-256 Encryption, Cryptography, File I/O, OOP

([GitHub](#))

• **BMI Calculator Application (Android Development, Mobile Application, Health Tracking):** Designed and developed a real-time BMI tracking application using modern Android development practices. Implemented MVVM architecture with Firebase integration and optimized UI performance for a smooth user experience.

Tech: Kotlin, XML, Jetpack Compose, Firebase

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Foundations Associate – Oracle | ([Link](#))
- Cloud Practitioner Essentials – AWS | ([Link](#))
- FastAPI Masterclass Certification – Udemy | ([Link](#))

EXTRACURRICULAR ACTIVITIES

- Published research paper at Microsoft CMT International Conference 2025. ([Link](#))
- Consistently solved 350+ algorithmic problems on Leetcode and GFG with a 40% acceptance rate.
- 3x Silver academic medal for individual brilliance and leading member of SPC group.
